

Co-Curriculum at Home

Monday 24th August - Sunday 30th August

Dear students and families,

National Science Week was a big hit last week! Well done for giving those activities a go. I look forward to sharing the competition winners soon.

This week, we are also very excited to launch a P-6 Singing @ Home club. Give it a try!

A few important things to note before you engage with these activities:

- Many of these activities are run by third party websites and are shared in good faith.
- Please always exercise caution online.
- Be extra safe for activities that have a practical element or require use of equipment.
- Primary students should check in with a Parent/Guardian first before participating in activities.
- All participation in this program must follow Marymede school rules & Conduct in the Online Environment information sent by Ms Hall.

Happy exploring!

Ms Angie Bedford

As you can only have one upload per student, please save your photos and submit a <u>collage</u> of the images. Happy hunting!</p>
